

Central Park

With a range of on-site sports facilities and plenty of activities for families and younger children, Central Park is one of the best-used green spaces in the town. Originally used as a private deer estate in the late eighteenth century, the park is now one of the focal points of Boston where everyone can enjoy the open space.

Boston Buoys Trail

Why not take the long route to Central Park and experience the [Boston Buoys Art Trail](#), with the last of six buoys in the centre of the park. You can see the stunning 'By Land', inspired by Boston's coat of arms, within the spiral garden designed by British artist Carrie Reichardt.

Bird Aviary

One side of the park is home to a bird aviary, a unique spot to enjoy wildlife, and a fantastic place to experience with younger children.

Right in the town centre, Central Park is a popular picnic spot during the summer months, giving you space to relax and unwind.

Skate Park

There is a purpose-built skate park and multi-use games area used by visitors and many welcoming community groups. The park also features a range of exercise equipment for a free and easy way to get your blood pumping.

Also located at Central Park is a purpose-built family playground, perfect for keeping young children entertained.

Grab a bite to eat

Cafe Noglish is a great spot for a light lunch, cakes, and hot drinks, located at the entrance to the park at Park Gate (PE21 6RL)

Getting Here

Central Park can be accessed from Park Gate on foot, (PE21 6RL) or by car, when parking at Bargate Green (PE21 9DA) or Cattle Market (PE21 6SH)
